Rolling Door Industries LLC is a proud member of the U.S. Green Building Council (USGBC) encouraging and supporting the LEED (Leadership in Energy and Environmental Design) green building program. LEED certification is a globally recognized symbol of sustainability achievement.

Knowing that no product alone can earn LEED credit points, Rolling Door Industries' products and services represent a useful tool towards earning such credits on the design of healthy, highly efficient, and cost-saving green buildings, helping to achieve the LEED Certification.

The intent of the program is to increase the demand of building products with high recycle content materials, reducing the environmental impacts resulting from processing virgin materials.

Following are some of the Categories Rolling Door Industries' products can contribute to earn LEED credits:

Material and Resource Credit:

Rolling Door Industries' Roll up Security Grilles are build to last, they have engineer calculations for High Velocity Hurricane Zones meeting the Florida Building Code regulations, plus they are designed for long cycles life that can reach 15 or more years depending on the door use.
